EMDECS Benefits

Bringing
together
all the
moving parts
of your
enterprise

Our Leading Edge Software

EMDECS is cloud-based maintenance software for heavy-duty equipment combining fleet and repair shop management into one comprehensive package. We've built in everything you need to track assets, instantly see profit and loss, manage preventive maintenance, and reduce downtime for your fleet.

Proven Performance

- EMDECS has been battle tested by over 1,700 companies globally.
- EMDECS manages over 1.5 million active units and growing.
- EMDECS users have invoiced over \$500 million this year alone for maintenance and repair.

EMDECS puts you in charge!
